Leica BLK2GO Handheld Imaging Laser Scanner Firmware 2.1.0 Release & Leica BLK2GO Live App Version 1.3.0 Release

Dear All,

We are pleased to announce the release of the new **Leica BLK2GO firmware v2.1.0** and the **Leica BLK2GO Live App Version 1.3.0** release for Android and iOS.

Leica BLK2GO firmware v2.1.0

With immediate effect, the new firmware can be downloaded from the myWorld @ Leica Geosystems customer portal: <https://myworld.leica-geosystems.com>. The firmware is also available on the BLK2GO homepage: <https://shop.leica-geosystems.com/blk2go-firmware>.

Features include:

- New design and functionalities on the internal webpage for firmware update (connect to the BLK2GO WiFi and access 10.1.1.1 in your web browser)
 - Device details
 - Remote start & stop scan
 - Download scans
 - Automatic forms for generating Service Reports
 - Download a Service Report
 - Factory reset
- Support for upload scans to HxDR directly from the device.
- Improved performance in bright sunlight

E-mail: jakob.lidl@leica-geosystems.com.

www.leica-geosystems.com

- Automatic country switching for WiFi band selection
- Faster booting of the device
- General system stability improvements.

Please refer to the enclosed release notes for details about the new firmware. Please also refer to the enclosed update guide for information regarding the firmware update procedure.

Leica BLK2GO Live App Version 1.3.0.

This version includes the following features:

- Establishing an online connection using personal hotspot or local WLAN network. This feature requires BLK2GO firmware 2.1.0 or newer
- Start, pause, cancel and queue direct uploads of scans from BLK2GO to [HxDR](#). This feature requires BLK2GO firmware 2.1.0 or newer
- Integrated [how to scan](#) section in hamburger menu to support first time users
- Language support for Chinese, Dutch, English, French, German, Japanese, Polish, Russian and Spanish
- Stability improvements and bug fixes

BLK2GO Live App is available on iPhones running iOS 12.1 and higher and on Android smartphones running Android 9 or higher. Recommended devices are the iPhone series 8, X, 11 and 12, and Samsung Galaxy series s10, s20 and s21. Version 1.3.0 is available for download on Apple's [App Store](#) and Google's [Play Store](#) free of charge from 8th October 2021.

More information about the BLK2GO Live App can be found on the following product page:

<https://shop.leica-geosystems.com/blk2go-live-app>

By uploading data in the field directly to HxDR, users can instantly view, manage, and share their data online, or download their data for further processing. An HxDR account is required to enable cloud upload. BLK2GO users will be able to use this new feature when HxDR is made publicly available in the near future.

We trust that by enabling internet access to the BLK2GO in the field, we pave the way for increasingly cloud driven workflows which simplify and speed up our customer's applications.

If you have any comments or questions, please don't hesitate to contact us.

Kind regards,

Jakob Lidl
